

EMPLOYMENT REHABILITATION AND CONSULTANCY SERVICES

Employment and Earnings Reports for the Court

Our consultants offer knowledge and experience of a broad range of occupations and industries including the police, education, health, finance, construction, manufacturing and administration. We also have substantial labour market information on industries including: IT, oil and gas, film, TV and leisure.

We are familiar with the procedures involved in court hearings, industrial tribunals and mediation.

Reports are individually researched to take account of the claimant's injuries, educational and employment background, and local labour market.

We would normally undertake a personal interview with the claimant prior to preparation of a report. If this is not possible then we are still able to prepare a desktop report.

Our reports provide:

- An analysis of a claimant's pre-accident employment and earnings history
- An assessment of their career progression had the injury not occurred
- A labour market analysis
- Information and advice on re-training
- An assessment of residual employment prospects and earning capacity

Please contact Jan Walters to discuss your requirements.
