---

## **HJS Personnel**

Established in 1989, HJS Personnel Services is a specialist employment and vocational rehabilitation consultancy with a wealth of expertise and experience in providing a range of services to assist in the assessment of employment opportunities and earnings prospects following personal injury.

Instructions are received on joint, claimant and defendant basis and we are regularly recommended by barristers. Our reputation has been established as reliable, providing quality service, with a guarantee of meeting deadlines.

## **Employment Reports for the Court**

We have been involved in the preparation of employment reports for litigation purposes since 1989. Reports are prepared to evaluate the employment and earnings prospects of claimants seeking compensation for loss of earnings as a result of an accident, medical negligence, industrial injury and in any other cases involving litigation and disputes. Each report is based on individual research and is produced to meet the requirements of the case. Where possible claimants are interviewed with a view to gaining detailed knowledge of educational background and work experience. Reports outline and evaluate employment possibilities and earnings potential.

## **Vocational Rehabilitation Pathway to Work Programme**

We provide information and advice on rehabilitation and retraining options for individuals to facilitate their return to the labour market. Our Pathway to Work programme encourages and assists in a pro-active return to training and work and involves an evaluation of skills and experience and identification of the support and assistance available.
